think smart
DESIGN SERVICE

Entry Level Design Service

- Advice over the phone on choosing the right fittings and system requirements.
- Basic lighting layout showing intelligent lighting circuits, complete with maximum circuit loadings. (CAD Drawings must be supplied for this option.)
- Basic Audio/Video layout showing equipment specifications.
- Technical backup for all products purchased through Smart Home Supplies.
- All drawings and specifications provided as PDF and Jpeg.
- Think Smart Design Service
- At Smart Home Supplies we offer the very best in advice, design, support and product distribution, helping you to provide the highest quality service for your clients.
- Whilst the competition simply follow the herd, when it comes to conventional distribution methods, Smart Home Supplies have broken
- the mould offering a full design service to remove the guess work and technical knowhow. This helps to alleviate any worries and
- provides the personal touch when it comes to providing a solution tailored to meet your clients needs.
- Please see below for the design option that meets your requirements and give us a call.
